SETTING THE STANDARDS IN CLEANING & HYGIENE

Established in 1999 Greyland Limited is one of Britain's leading manufacturers of Industrial and Institutional cleaning chemicals. Greyland provides a fast, reliable delivery of both Greyland branded products and customers' own label products.

During 2020, Greyland were accredited by the CHSA for their new chemical manufacturers scheme.

Greyland Limited has developed a new extensive range which combines established products with a new-generation of powerful cleaning products to meet your requirement for products which are safer for your customers and the environment.

DILUTE 2% 1:50**

*Certified to EN 14476 (1 minute contact time)

Maximum Eco is manufactured by Greyland, one of the leading cleaning chemical manufacturers and are also one of the few UK companies to be awarded both the ISO 9001:2015 Quality Standards and the prestigious ISO 14001 Environmental Standard.

Greyland have always been committed to the industry's highest environmental standards, not just within its own factory and warehousing, but also with its manufactured products. The Maximum Eco Range was introduced for those customers looking for selected products balancing minimum environmental impact with maximum efficacy.

Products featuring in the Maximum Eco range are:

- | | | |
|---------------------------------------------|-------------------------------------------------------|---------------------------------------------|
| > Green Maximum Biological Washroom Cleaner | > Orange Maximum Cleaner & Degreaser | > Washing Up Liquid |
| > Biological Urinal Blocks | > Lemon Cleanser | > Window, Glass and Stainless Steel Cleaner |
| > Grease Trap Maintainer | > Cherry Maximum Extraction Carpet Cleaner/Deodoriser | > Cranberry Air Freshener |
| > Odour Digester | > Lavender Maximum Floor Gel | > Hygiene Lotion Soap |
| > Daily Toilet Cleaner | > Lemon Maximum Citrus Floor Gel | > Washing Up Liquid |

There is a product in every area that users are likely to need, from dealing with toilet odours, to maintaining hard floors or cleaning carpets, degreasing hard surfaces, or for simply washing hands, Maximum Eco by Greyland covers it all.

Greyland takes responsibilities towards the environment very seriously. As well as the ISO 14001 Environmental Standard, Greyland is a member of the Green Business Network. We recycle all packaging, plastics as well as cardboard, and of course, our environmental policy means that we comply with REACH and all current water authority regulations.

Maximum Eco Range is available now, so please call us today.

Probiotic Enzyme Range

Maximum Eco by Greyland includes a range of probiotic based products. Products containing probiotics have seen a vast uplift in recent years. Probiotics work by using eco friendly bacteria to colonise surfaces. Enzymes are then produced which break down organic matters such as carbohydrates, fats and proteins. By doing this, these products are able to effectively remove soiling for a long-term cleaning effect and help to eliminate unpleasant odours. Due to the non-corrosive nature of probiotic cleaners, surfaces are not damaged by their regular use.

The key benefits of using probiotic cleaners include cost reductions, health benefits and a reduction in environmental impact. These products use a sustainable source of UK cultivated enzymes which have a minimal environmental footprint. As always, cost effectiveness is key when selecting cleaning products. Once the surfaces are colonised, the bacteria continues to work long after the product is applied. This reduces the volume of product required and, as a result, costly labour time. Bacteria can reach hard to access areas where conventional products would not be as effective, such as in grouting, floor imperfections, grease traps and carpet underlay.

Green Maximum Biological Washroom Cleaner.....5L & 6 x 750ml

- Breaks down organic soiling in the washroom environment
- Eradicates odour issues and blockages
- Enables significant water saving
- Safe to use with waterless urinals, Maximum Eco Biological Urinal Blocks and compatible with septic tanks

Biological Urinal Blocks1.1kg tub

- Removes and prevents build up of limescale and uric acid within pipe systems
- Eradicates odour issues and blockages
- Offers significant water saving benefits
- Safe to use with waterless urinals and compatible with septic tanks

- Neutral pH, with no hazard classification
- A fruity perfume with a burst of cranberry
- CFC free and ozone friendly

Hygiene Lotion Soap5L, 6 x 1L & 6 x 500ml

- Neutral pH and phosphate free
- Kind on hands
- Non-tainting, odourless and ideal for use in catering environment

Washing Up Liquid5L & 10 x 1L

- Neutral pH and odourless
- Formulated to minimise the impact on the environment whilst not compromising on performance or quality.
- Will not kill bacteria in septic tanks

The vast majority of all of Greyland's plastic containers, including the Maximum Eco range, are manufactured by Alpla UK using a high level of recycled polymer. The aim being to develop and implement sustainable bottle packaging long into the future. Using their extensive bottle manufacturing experience, Alpla UK have introduced the use of recycled polymers to the industrial cleaning chemicals sector.

Greyland's cleaning chemical ranges are supplied to the market place in plastic containers made from (PCR) Post Consumer Recycling Polymers, recycled entirely within the UK. A successful rollout of these recycled materials ensures that all Greyland Distributors will meet the future demands and expectations of retailers and consumers.

Toilet & Washroom

Citrus Ultra 4-in-15L
Cleans, disinfects, deodorises & descales.
Conforms to EN1276 and EN14476 at 1:50.
