

Urinal Blocks

BT6

Available in: 1.1kg tub
Order Code: 5091/72

One tub of BT6 contains 50 blocks on average.

PRODUCT DESCRIPTION

Water soluble cleaning and deodorising blocks for use in all urinals.

DIRECTIONS FOR USE

*Put one or two blocks in each urinal.
For troughs place 50cm apart.
Store in a cool, dry place.*

The Maximum Eco Biotech Range provides the highest level of cleaning performance with a minimal impact on the environment.

Provides optimum performance

Reduced carbon footprint in production and in transit

Multi-sector usage

Low cost in use

- *Contains special bacterial cultures that clean and deodorise urinal traps and pipes.*
- *Ongoing biological activity allows to substantially reduces water usage and can be used with waterless urinal systems.*
- *The biological formula does not contain carcinogenic pDCB.*
- *Ideal for use in public buildings such as hotels, pubs and restaurants.*
- *Biological cleaning power works in the pipes to prevent the build-up of solids.*
- *Safe for use in all urinals troughs including stainless steel, porcelain and ceramic.*

FEATURES & BENEFITS

- *Strains of harmless bacterial cultures together with environmentally sympathetic chemical cleaners break down the organic waste and uric scale in urinal traps and pipes that cause odours, blockages and flooding.*
- *Use of Biological Urinal Blocks reduces flushes to typically 3-4 times a day.*
- *Offers significant water-saving benefits.*
- *Biological Urinal Blocks do not contain pDCB or other dangerous chemicals & are particularly suitable for use in public buildings, hotels, pubs, clubs, institutions & restaurants etc.*

RECOMMENDED USE

Use up to three BT6 blocks per urinal.
